Maybe because they have a signed ROD but not a signed MPO. The ROD indicates USFS's intent to not approve the MPO until certain provisions are met, including getting 401 cert from ADEQ (which in turn is conditioned upon getting a 404 permit from the Corps). Corps hasn't issued a ROD or 404 permit yet.

J –

In case Kathy and the others are wondering - I asked if we should expect any further near term interaction. She said she was just keeping the files current.

Why would keep the files current on a completed EIS? Go figure.

Regards, E
